

REMARKS

Claims 1-2, 4-5, and 7-12 are pending. Claim 7 has been amended. Claims 3, 6, and 13-17 are withdrawn from consideration.

The Examiner has identified in the application the following patentably distinct species of the claimed invention:

- (1) Group I, Fig. 1;
- (2) Group II, Fig. 2;
- (3) Group III, Fig. 3; and
- (4) Group IV, Fig. 4.

The Examiner has required election of one of the species. Applicant respectfully elects to prosecute the species of Group III (Fig. 3) and Claims 1-2, 4-5, and 7-12 which read on the elected species. Applicant reserves the right to add back claims to the non-elected species if a generic claim is allowed.

Applicant has amended the specification and Fig. 3 to correct a numbering error. Specifically, the reference number "40" was inadvertently used to identify two different components. The second occurrence of reference number "40" identified a display device and has been renumbered "41". Fig. 3 has been amended to correspond with this change. The changes made add no new matter to the application.

CONCLUSION

In light of the foregoing, Applicant respectfully requests entry of the present Amendment and examination of the elected species of Group III (Fig. 3) and Claims 1-2, 4-5, and 7-12.

The Applicant's undersigned attorney is available for a telephone conference to discuss the application.

Respectfully submitted,
